I am a graduate of The Culinary Institute of America and absolutely love to cook! I look for adventures from the Lord, and when they arise, I take them! I look to see all things beautiful in the midst of their surroundings, whatever this may entail. My current adventure is in Cochabamba, Bolivia to open up a cafe for an airline, where the proceeds will support a local orphanage.

"I would like to see *beauty in the midst of whatever most believe is holding it back.*"

"It is a really awesome opportunity as I see all the ways in which this restaurant is becoming a sustainable business and ministry. All of the profit from the restaurant goes directly to orphans here in Bolivia, but the opportunities for ministry go far beyond just that."
